

Console:

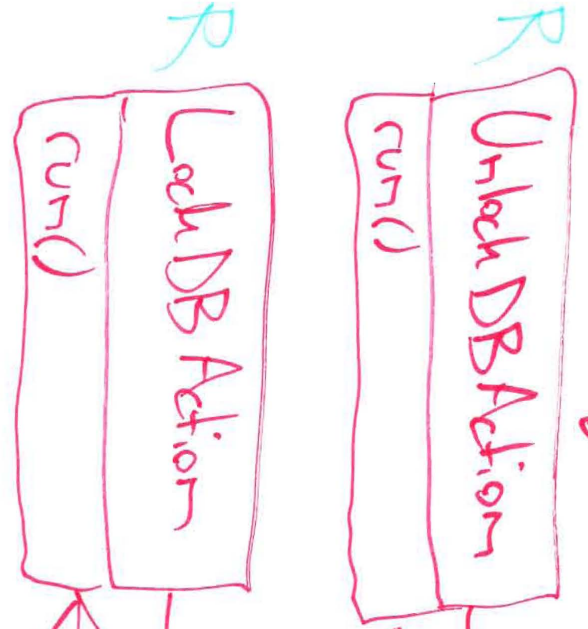

INFO: trying to unlock

comes from

"TryToUnlock" referred to in
only one Java class:

Messages.properties
LockDBAction.log.TryToUnlock

Runnable (e.g. Threads!!!)

PasswordSafe JFace
table
lockDBAction
unlockDBAction

org.eclipse.swt.widgets.Table

* getPwdFile() * setLocked()
* clearView() * openFile()
* setPwdFile()

My essential mental model while fixing this bug.
